

AADITYA GUSAI

Haryana, India | github.com/simpaaditya29 | your.email@example.com

EDUCATION

Gurugram University

Haryana, India

Bachelor of Computer Applications (BCA) — **Ongoing**

Senior Secondary (12th Grade)

Completed: 2025

Percentage: 50%

High School (10th Grade)

Completed: 2022

Percentage: 75%

EXPERIENCE

Skillairo

Remote

Machine Learning Intern (Python)

- Developing customer segmentation models and optimizing machine learning algorithms.
- Processing and manipulating large-scale datasets using Python and Pandas to extract actionable insights.

PROJECTS

Onyx Chess Engine

Python, Pandas, AI Agents, Stockfish

- Engineered a self-improving, interactive chess training application leveraging the Stockfish engine and Maia neural networks.
- Integrated custom evaluation metrics to analyze player accuracy, classify tactical missteps, and generate analytical reports.

PitchPulse-AI

Python, SQL, Pandas, Machine Learning

- Built an advanced data analytics platform designed to process datasets and run clustering models.
- Generated structured analytical visual reports for data-driven decision making and performance tracking.

TECHNICAL SKILLS

Languages & Databases: Python, C, SQL

Libraries & Tools: Pandas, Machine Learning, AI Agents, REST APIs, Git, GitHub, VS Code

INTERESTS & HOBBIES

Active competitive chess player, dedicated acoustic/electric guitar practitioner, and avid music listener.
